Surg Solutions — `/services/` Page Rewrite Instructions (v2)

Context

You are updating the services page of `surgsolutions.online`. This is the page where prospects make a buying decision. Its job is to (1) help the visitor understand what's being sold, (2) help them self-select a tier (Starter / Standard / Advanced), and (3) convert them to book the free audit.

Pricing approach

We do **NOT** publish full pricing on this page. We show one anchor only: *"From ₦450,000"* on Starter. All other tiers say "Custom pricing" or "By application." This protects negotiation flexibility while still filtering tire-kickers.

CRITICAL — avoid repetition with the homepage

This page must **not duplicate** content the homepage already covers. Specifically, do NOT add to this page:

- The "Why customers ask AI for recommendations" urgency band (lives on Home)
- The "You don't have a marketing problem, you have a system problem" framing (lives on Home)
- The methodology / 4-step framework (lives on Home)
- The big "In 90 days..." promise band (lives on Home)
- Repeat of homepage hero stats / case study cards (lives on Home + Case Studies)

This page owns the **buying decision layer**: tiers, what's included at each level, comparison, inclusions, risk reversals, tier-specific FAQ.

Audience Lock

Local service business owners — auto repair, electricians, plumbers, clinics, law firms, dentists, trades, salons. ₦20M–₦200M annual revenue. Already aware of Surg Solutions (came from Home or referral). Now evaluating fit.

Voice

Direct. Confident. Anti-fluff. Outcome-led, not activity-led.

---

1. HERO — light tweak only, do not rebuild

Keep the existing H1: `Everything Your Business Needs to Grow Online — In One Place.`

Replace the existing subheadline with: `We don't sell individual services. We build complete growth systems — structured in three tiers so you can pick the right level for where your business is today.`

Keep the existing CTA buttons.

---

2. FOUR COMPONENTS — rewrite copy only, keep layout

For each of the four service blocks, replace activity-language with outcome-language. Keep the existing 4-block layout, icons, and bullet chips. Only the descriptive paragraph and chips change.

Block 1 — Website Design & Development

Heading: Keep as-is. Add `id="website-design"` to the heading element. **New body:**

> Your website is the asset every other system feeds. We build fast, mobile-first, conversion-focused websites that turn visitors into booked enquiries — not digital brochures that sit and look pretty.

Chips: Conversion-focused · Mobile-first · WhatsApp-integrated · Owned by you forever

Block 2 — SEO & Answer Engine Optimisation

Heading: Keep as-is. Add `id="seo-aeo"` to the heading element. **New body:**

> When a customer in your area Googles your service — or asks ChatGPT, Claude, Perplexity, or Gemini for a recommendation — your business shows up. We engineer your visibility across both traditional search and AI answer engines.

Chips: Local SEO · AI search visibility · Google Business Profile · Entity authority

Block 3 — Google Ads & Meta Ads

Heading: Keep as-is. Add `id="ads"` to the heading element. **New body:**

> Paid traffic is the fastest lever in your growth system. We set up and run campaigns that put your business in front of people actively searching for what you offer — and we optimise them weekly so cost-per-lead drops as the system matures.

Chips: Google Search Ads · Meta Ads · Weekly optimisation · Landing pages built-in

Block 4 — Growth Automation

Heading: Keep as-is. Add `id="automation"` to the heading element. **New body:**

> A lead that waits 10 minutes for a reply is a lead you've lost. Our automations respond instantly, route enquiries to the right place, and turn happy customers into 5-star reviews — all without you lifting a finger.

Chips: Instant lead reply · Review engine · Lead routing · Performance dashboard

3. REMOVE the current "Flagship Offer" block

Delete the existing "The Business Growth System" section (the bullet list block). It's replaced by the tier section below.

---

4. NEW SECTION — "Choose your growth tier"

Insert directly below the four components. This is the heart of the page.

Layout: Three pricing cards side by side on desktop, stacked on mobile. Middle card (Standard) is visually elevated — bigger shadow, accent border, and a "Most Popular" ribbon at the top.

---

5. NEW SECTION — "Compare tiers side-by-side"

Insert directly below the tier cards. Helps prospects who want to scan rather than read three cards in full.

Section heading (H2): `Compare tiers side-by-side`

Layout: Responsive table. On mobile, convert to horizontally-scrollable table or stacked accordion.

6. NEW SECTION — "Included with every growth system"

Insert below the comparison table. This is the bonus stack — make it visually scannable with crossed-out anchored values.

> **Important:** Keep the crossed-out bonus values even though we hide package pricing. Bonus values do a different job — they make the included extras feel valuable when the audit call quote is presented, regardless of what we charge.

Section heading (H2): `Included with every Standard & Advanced system – at no extra cost`

Sub: `Most agencies charge separately for each of these. We include them.`

Layout: Two-column list. Inclusion left (with checkmark), value right (crossed-out, muted).

Inclusion	Standalone Value
✓ AI Visibility Audit — your business + top 3 competitors across ChatGPT, Claude, Perplexity, Gemini	~~₦150,000~~
✓ 90-Day Content & AEO Entity Calendar	~~₦200,000~~

✓ 6 × Monthly Strategy Calls	~~₦300,000~~

Closing line (large bold, centred): `Total bonus value: ₦1,050,000+ — included free.`

> **Note for builder:** Replace placeholder Naira values with the agency's real positioning prices before publishing.

---

7. NEW SECTION — "Why working with us is risk-free"

Insert below the bonus stack. Three cards in a row, each with icon, title, body.

Section heading (H2): `Why working with us is risk-free`

Card 1 — icon: Shield Title: `Lead Guarantee` *(Standard & Advanced)* **Body:** `If our system doesn't hit agreed lead targets in 90 days, we keep working free until it does. You pay for outcomes, not activity.`

Card 2 — icon: Unlock Title: `You Own Everything` **Body:** `Website, content, ad accounts, automations, customer data — all yours, forever. Walk away anytime and take it all. No agency lock-in.`

Card 3 — icon: Calendar Title: `Live in 30 Days or Refund` **Body:** `Your system goes live within 30 days of project start. If we miss it, your setup fee is refunded – and we still finish the build at no extra cost.`

---

8. NEW SECTION — "Frequently asked questions"

Insert below the risk reversal section. Use an accordion component (click to expand). Keep questions tight and answers ≤3 sentences.

Section heading (H2): `Frequently asked questions`

Q: Why don't you publish full pricing?

Because every business is different. Pricing depends on your industry, target lead volume, ad spend appetite, and current digital foundation. A clinic in Abuja and a multi-branch auto chain need very different systems — and very different budgets. The free audit is where we figure out what fits and quote you a clear, fixed monthly retainer.

Q: What's the difference between the tiers?

Starter is for businesses still relying on referrals — it gets you found. Standard adds paid ads, deeper content, and a lead guarantee — most clients sit here. Advanced is for ambitious operators who want market dominance across every digital surface.

Q: Why is there a setup fee and a monthly retainer?

The setup fee builds your asset — the website, SEO foundation, automations. You keep this forever, even if you cancel. The monthly retainer is the engine — content, ad management, optimisation, strategy — that drives leads in continuously.

Q: Do I have to commit to ad spend?

For Standard and Advanced, yes. Ads are the fuel that accelerates your system. Recommended ad spend is paid directly to Google and Meta — we'll discuss the right starting budget for your industry on the audit call.

Q: Can I cancel anytime?

After your minimum term, yes — month-to-month, no penalty. You keep everything we built.

Q: What happens if you don't deliver?

> Standard and Advanced come with a Lead Guarantee — if we miss the agreed target by day 90, we keep working free until we hit it. Setup fees are refunded if your system isn't live in 30 days.

Q: Do you work with my industry?

> We work best with local service businesses doing ₦20M+ annual revenue — auto, trades, clinics, law firms, dentists, salons, restaurants. If you're outside that, mention it on the audit call and we'll tell you honestly whether we're the right fit.

Q: What if my business is too small for Standard?

> Start with Starter. Most clients move up to Standard within 3–6 months once their foundation is producing leads. There's no penalty for upgrading.

---

9. FINAL CTA — rewrite (don't repeat the homepage CTA)

The homepage CTA is *"Ready to stop being invisible in AI search?"* — do not reuse the same wording. This page's CTA must speak to someone who has already chosen a tier mentally and just needs to commit.

H2: `Not sure which tier fits? Let's figure it out together.`

Body:

> Book a free 30-minute audit call. We'll review your current visibility across Google and the major AI engines, look at where leads are leaking, and recommend the tier that matches your goals and budget. No pitch. No pressure.

Primary CTA: `Book My Free Audit` → `/audit/`

Secondary CTA: `Message on WhatsApp` → existing WhatsApp link

---

10. FOOTER — fix broken service links

The current footer has four service links — Website Design, SEO & AIO, Google & Meta Ads, Growth Automation — all pointing to the same `/services/` page. Change them to anchor links targeting the four service blocks on `/services/`:

- `/services/#website-design`
- `/services/#seo-aeo`
- `/services/#ads`
- `/services/#automation`

(Matching `id` attributes are added to the four service block headings in Section 2.)

DO NOT CHANGE

- Top navigation
- Footer structure (only fix the broken anchor links above)
- Brand colours, fonts, logo
- Existing case study links

DESIGN NOTES

- Tier cards: Standard card visually elevated (bigger shadow, accent border, "Most Popular" ribbon)
- Comparison table: zebra striping for readability; horizontal scroll on mobile
- Bonus stack: prices crossed out in muted grey, total in brand colour
- Risk reversal cards: clean Lucide icons (`Shield`, `Unlock`, `Calendar`)
- FAQ: accordion behaviour, only one open at a time
- Maintain mobile responsiveness throughout

SEO META — update services page

Title tag: `Services & Pricing | Growth Systems for Local Businesses | Surg Solutions`

Meta description: `Three growth system tiers – Starter, Standard, Advanced – built for local service businesses. Lead guarantee, 30-day live, and you own everything we build. Book the free audit.`
